FOREWORD

PRESIDENT OF INAGA

On behalf of the Indonesian Geothermal Association (INAGA), it is my great pleasure to welcome you to the **11th Indonesia International Geothermal Convention & Exhibition (IIGCE) 2025**, which will take place on **17 - 19 September 2025** at the **Jakarta International Convention Center**. This world-class event marks another milestone in our collective journey to advancing geothermal energy as a key pillar of Indonesia's sustainable energy future.

This year's theme, **"Fostering Collaboration for a Green Economy in Indonesia: The Role of Geothermal Energy in Sustainable Growth"**, underscores the vital role of geothermal energy in driving economic progress while ensuring environmental sustainability. As a clean, renewable, and reliable energy source, geothermal energy is at the forefront of Indonesia's energy transition, contributing to emission reductions, energy security, and long-term economic resilience.

Indonesia is endowed with nearly 40% of the world's geothermal potential, yet only 11% of these resources have been utilized. This represents an immense opportunity for the nation to accelerate its geothermal development and integrate it more effectively into the green economy. INAGA remains committed to fostering collaboration, driving innovation, and facilitating knowledge-sharing to unlock the full potential of geothermal energy. By strengthening partnerships with the government, industry leaders, researchers, and local communities, we aim to create a robust investment climate, promote best practices, and advocate for policies that accelerate industry growth.

Harnessing geothermal energy is critical to achieving Indonesia's energy self-sufficiency (*swasembada energi*), as outlined in Asta Cita. As a reliable and cost-effective base-load power source, geothermal energy must be accelerated to effectively replace fossil fuels. Without this acceleration, the energy transition cannot proceed, and fossil fuels cannot be phased out. The urgency of this transformation requires a concerted effort across all stakeholders to ensure geothermal energy plays a central role in securing Indonesia's sustainable and independent energy future.

To achieve true competitiveness, the geothermal industry must strengthen collaboration across stakeholders, implement effective incentives, enhance exploration drilling efficiency, reduce capital expenditures, and optimize production. Expanding geothermal's role beyond electricity-through direct-use applications and industrial synergies-will further maximize its value and open new economic opportunities.

Beyond power generation, geothermal energy delivers tangible benefits to local communities. It fosters job creation, regional growth, and CSR initiatives, enhancing livelihoods and sustainable employment while contributing to Indonesia's broader economic landscape.

Geothermal development also plays a significant role in Indonesia's GDP growth and in reaching the 75 GW renewable energy target. Strengthening its position in Indonesia's energy landscape will further establish the country as a global leader in green energy, reinforcing its commitment to a sustainable and resilient future.

Through IIGCE 2025, we reaffirm our vision of positioning Indonesia as a global leader in geothermal energy. This platform provides an invaluable opportunity to exchange insights, explore cutting-edge technologies, and build strategic partnerships that will shape the future of sustainable energy.

The synergy between geothermal energy and the green economy is key to achieving both national and global climate goals. Let us continue to collaborate, innovate, and inspire one another as we work towards harnessing the immense potential of geothermal energy for a cleaner, greener, and more prosperous future.

Sincerely,

Julfi Hadi
President of INAGA

FOREWORD

CHAIRMAN THE 11th IIGCE 2025

It is with great pride and enthusiasm that I welcome you to **The 11th Indonesia International Geothermal Convention & Exhibition (IIGCE) 2025**, taking place from **17 - 19 September 2025** at the **Jakarta International Convention Center**. IIGCE 2025 serves as a vital platform to showcase Indonesia's achievements, share innovative geothermal strategies and technologies, as well as foster international collaboration to accelerate geothermal development.

This year's convention, themed **"Fostering Collaboration for a Green Economy in Indonesia: The Role of Geothermal Energy in Sustainable Growth"**, brings together key stakeholders from around the world, including government officials, industry leaders, investors, researchers, and policymakers. Over the three days event, participants will engage in insightful discussions, discover cutting-edge technologies, and network to address the challenges and opportunities in the geothermal sector.

I would like to extend my deepest gratitude to our sponsors, partners, and participants for their unwavering support in making this event possible. Your commitment to advancing geothermal energy is instrumental in driving Indonesia's energy transition and supporting national energy resilience.

Let us seize this opportunity to collaborate, innovate, and inspire one another as we work towards a cleaner, greener, and more sustainable energy future. Together, we can unlock the full potential of geothermal energy and ensure its pivotal role in the global energy landscape.

Welcome to The 11th IIGCE 2025, and thank you for being part of this transformative journey.

Sincerely,

Ismoyo Argo

Chairman of The 11th IIGCE 2025

GENERAL INFORMATION ABOUT IIGCE

Building on a decade of success, **The 11th Indonesia International Geothermal Convention & Exhibition (IIGCE) 2025**, the world's largest geothermal event, returns on **17 - 19 September 2025** at the **Jakarta International Convention Center (JICC)**. This year's theme:

**Fostering Collaboration for a Green Economy in Indonesia:
The Role of Geothermal Energy in Sustainable Growth**

Hosted by INAGA and held alongside the 25th INAGA Annual Scientific Meeting, IIGCE 2025 brings together global leaders, experts, and innovators to shape the future of geothermal energy.

Through high-level discussions, cutting-edge technologies, and strategic networking, IIGCE 2025 fosters collaboration and accelerates geothermal development worldwide. As the world moves toward net-zero goals, this is where groundbreaking ideas and impactful partnerships emerge.

Be part of the future of geothermal energy, join us at IIGCE 2025!

The 11th Indonesia International Geothermal Convention & Exhibition (IIGCE) 2025

with theme:

**Fostering Collaboration for a Green Economy in Indonesia:
The Role of Geothermal Energy in Sustainable Growth**

17 - 19 September 2025

Assembly Hall, Jakarta International Convention Center

Opening Ceremony

**Wednesday, 17 September 2025
Assembly Hall 1, JICC**

The President of the Republic of Indonesia is invited to officially open The 11th IIGCE 2025.

Invitation only & Convention Participants.

Convention

**Wed-Thu, 17-18 September 2025
Assembly Hall 1, JICC**

The convention will bring together key players in the geothermal industry from Indonesia and around the world, including top government officials and executives from global companies, to discuss and address current industry challenges.

Convention Participants.

Technical Paper

**Wed-Thu, 17-18 September 2025
Lower Lobby, JICC**

The technical program will feature six parallel sessions covering various geothermal topics.

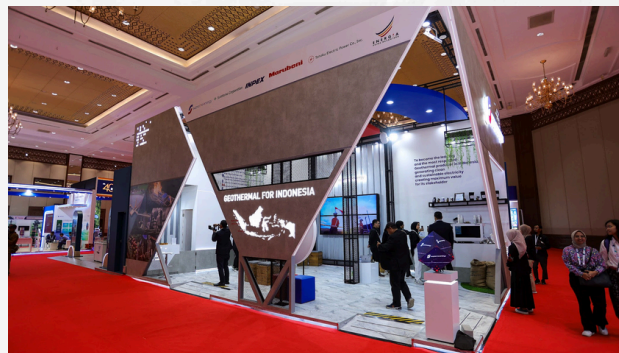

Convention Participants.

Exhibition

Wed-Fri, 17-19 September 2025
Assembly Hall 2&3, JICC

The exhibition is the largest and most significant geothermal event in the world, attracting over 6,000 visitors in just three days.

Open for Public.

Pre-Conference Workshop

(To be announced)

A special pre-conference workshop hosted by INAGA, featuring a two-day collaboration with key associations and institutions within the geothermal sector.

Pre-Conference Workshop Participants.

Networking Evening

Wednesday, 17 September 2025
Merak Room Lower Lobby, JICC

An exclusive evening featuring cocktails, dinner, and the Sponsor Appreciation Ceremony. The event will include a special guest star performance and live music.

Invitation only.

IGGC Rolling Golf Tournament

Saturday, 6 September 2025
Merapi Golf Yogyakarta

IGGC hosts an annual golf tournament to raise awareness of geothermal energy in local communities and enhance Indonesia's geothermal network and collaboration.

Limited Participants.

Geothermal Fun Walk & Run

Sunday, 14 September 2025
Ratu Plaza

This event promotes a healthy and enjoyable lifestyle through walking and running while fostering connections and collaboration. It also supports the growth of Indonesia's geothermal energy sector.

Limited Participants.

Field Trip

Fri-Sun, 19-21 September 2025
Blawan Ijen Geothermal

This year's field trip will take participants to Blawan Ijen Geothermal Field in East Java, Indonesia. The site highlights Indonesia's geothermal potential and commitment to sustainable energy development.

Limited Participants.

PROGRAM HIGHLIGHT ABOUT THE CONVENTION

The 11th Indonesia International Geothermal Convention & Exhibition (IIGCE) 2025 will be held from 17 - 18 September 2025 at the Jakarta International Convention Center. This two-day Convention Program will bring together key industry stakeholders, government agencies, policymakers, investors, developers, service companies, academicians, and practitioners in the geothermal industry.

Delegate Classification	Registration Fee	
	Early Bird	Normal Price

PROGRAM HIGHLIGHT ABOUT THE EXHIBITION

The IIGCE Exhibition is the largest and most significant geothermal event in the world, attracting over 6.000 visitors in just three days. This exhibition offers a unique platform to showcase cutting-edge geothermal technologies, equipment, and services in Indonesia-one of the world's leading geothermal energy producers.

The event serves as a hub for industry leaders and professionals to connect, exchange knowledge, and explore innovations in geothermal technology and related services.

Standard Shell Scheme space is available to exhibitors:

**All prices are exclude 11% VAT.*

PRIME AREA

IDR 5.500.000*/m² | USD 500/m²

REGULAR AREA

IDR 5.000.000*/m² | USD 450/m²

- Shell Scheme of 9m² (3mx3m) with Fascia Label displaying Company Name (Stand Sign)
- Complimentary Convention ID Badge(s) based on booth size
- 60-word Company Profile in the E-Program Book
- Free Electricity 2 Ampere, 2 TL White 40 Watt
- 1 Table, 2 Chairs and Trash Bin

WHY ATTEND?

The IIGCE has been a tremendous success since 2013, drawing over 6,000 participants globally, and its growth is set to continue. The event facilitates business development and marketing by connecting you with key stakeholders, including government representatives, policy makers, investors, developers, service companies, and geothermal industry experts.
